TOWARDS
2030

THE MOST IMPORTANT EVENT OF 2023 AND NO ONE NOTICED

THE MOST IMPORTANT EVENT of 2023 took place on September 18 and 19 and no one noticed. The SDG Summit to review the goals and to further implement the United Nation's Agenda 2030 took place without barely a whisper from the watchdog reporters, bloggers, or talking heads.

The first review of Agenda 2030 took place on September 24 and 25, 2019; it also took place with little fanfare. Its purpose was to review the progress the nations had implementing the 2030 Agenda and to push the nations to accelerate their actions in the final ten years. The result of this review was the 2020 pandemic, lockdowns, supply chain disruptions, limiting of food purchase, unemployment, inflation, riots, looting, violence, exacerbating of various social and political issues, and overall chaos and anarchy.

In this second review of Agenda 2030, with only seven years left to accomplish their goals, the United Nations purpose is to launch a "new phase of accelerated action" encouraging the nations to take greater action to achieve the 2030 goals. [1] The outcome of this 2023 Summit was outlined on the United Nation's website.[2] It's focus, without giving details to how it all will take place, was on the seventeen Sustainable Development Goals outlined in Agenda 2030. It should be noted that no matter how much The United Nations seeks to eliminate the world's ills, they are fighting against God, and their goals will not be achieved. What will be accomplished is the transformation of our economy to cashless, transformation of nations to global governance, the control of the world's population through fear of disease, health care, vaccines, etc., and transformation of Christian values to heathenistic, non-Christian values.

THE POLITICAL DECLARATION

The most important outcome of the 2023 Summit was the adoption of what the United Nations called a "Sweeping Political Declaration Reaffirming Commitment to Achieve Sustainable Development Goals." [3] You can read the Declaration on the United Nation's website by clicking the link in the footnote. [4] This declaration is the world leader's reconfirming their agreement to unite in achieving Agenda 2030. They agreed to turbocharge their efforts in these next seven years leading to 2030. The urgency to do so was agreed upon under section III. *Call to action – turning our world towards 2030*, paragraph 36: "We commit to taking continuous, fundamental, transformative and urgent actions at all levels and by all stakeholders to overcome the crises and obstacles facing our world. We recognize the urgent need to take the actions necessary to reverse declines and accelerate progress to achieve the 2030 Agenda and implement the SDGs." [5]

WHAT WE CAN EXPECT

We experienced the outcome of the 2019 Summit in 2020. We can expect more of the same with greater impact than what we saw in 2020. Not a good picture to visualize. If you thought 2020 was bad, brace yourself, 2024 and beyond is destined to unleash seven years of sorrows. The sad thing is, many continue to look to political leaders to get us out of our messes; the problem is, they are the ones leading the charge.

Gleaning from the Political Declaration we can expect more control over healthcare since the nations have agreed to “strengthening health systems and achieving universal health coverage and all other health-related targets and leaving no-one behind.” [6] This also means giving more authority to the United Nations “Emergency Platform” which gives the United Nations the authority to tell the nations how to handle global emergencies.[7] You saw the WHO’s involvement in 2020, their future involvement will be much greater, with more authority to impact national and world emergencies, real or perceived.

We can expect less use of cash and more advancements toward digital transactions and digital dollars. [8] This can only lead to more unemployment, closing of businesses, and inflation, which moves us into more violence, looting, and thievery.

We can expect more global governance as the nations continue to work together on taking action to fulfill Agenda 2030. Do a search of the Political Declaration for “international cooperation,” “multilateral,” and “multilateralism.” These are all synonyms for global governance. We are being primed for and ushered into the realignment of all nations under ten regions: the new world order.

Overall, we can expect more violence, anarchy, and an increasing gap between the rich and poor. Eventually there will be only the rich and poor, the kings and serfs, with no middle class.

So, you have a million or two in the bank. Don’t count on it to protect you. You’ll be in the poor house by the time 2030 rolls around, and the Antichrist is on the scene.

No matter how you roll the dice, the days ahead are about to get much tougher and more pressured. Without Jesus you will have no hope. Jesus gives us the hope that it’s all only temporary. Soon we will enter our eternal home without any injustices, pains, sorrows, or death. Hold on a little while longer. You can make it through. Hold on. Don’t let go. Hold on.

BIBLICALLY SPEAKING

The ultimate goal is demonic in nature. Though the wording of the Agenda 2030 goals sound good, as we saw in 2020 how they played out is far from good. The ultimate goal is to realign all nations under ten regions, as revealed in Daniel 2:41-42. Here we have the ten toes of Daniel’s vision of the final empire representing the realignment of all nations. For more information on this see my book, *age of the Antichrist ARE WE THERE YET?*

The glue that will hold this new world order together is revealed in Revelation 13:16-18 as the cashless economy. This cashless economy is being developed now. Once the infrastructure is in place, the nations will be interconnected and easily controlled by one central command or head of the new world order, who will eventually be the one we call the Antichrist. He will then mandate the cashless economy with the penalty of death for those who do not comply.

The environment necessary for the population to accept this new world order and a world leader with a plan to fix it all is an environment of violence, rioting, ethnic tensions, inflation, and overall chaos. This is the environment Agenda 2030 creates and will continue

to escalate until we arrive at 2030. World leaders have agreed at the September Summit to engineer a fast train to do what is necessary to achieve the 2030 goals. You and I are but passengers along for a very difficult ride.

The motivator for getting the majority onboard with the new world order is the healthcare system as we saw in 2020 with the pandemic and vaccines. Since the 2020 pandemic and vaccines worked out to be a successful test run, what is coming is destined to be much worse with greater lockdowns, mandates, etc. The Bible speaks of this healthcare deception to put in place this global plan by the world leaders, corporate leaders, and billionaires in Revelation 18:23:

“And the light of a candle shall shine no more at all in you; and the voice of the bridegroom and of the bride shall be heard no more at all in you: for your merchants were the great men of the earth; for by their sorceries were all nations deceived.”

Note that it is the merchants (corporate leaders, bankers, billionaires) who deceive the entire world to accept the new world order using healthcare, pharmaceuticals, vaccines, and such like. This is signified using the word *sorceries*, which in the Greek is *pharmakeia*, which refers to the use of medicine, drugs, and magic which are companions to practitioners of the occult and sorcery. *Pharmakeia* is also where we get our word pharmacy.

Once the cashless economy, realignment of all nations, and the health infrastructure are in place, the United Nations will introduce a leader over the new world order who will be able to bring peace and order out of the chaos of the years leading up to 2030. We know this man as the Antichrist. He will accept the authority given to him. He will use war as the means to enforce his policies and bring peace and prosperity out of earth's chaos. [9] The majority will sing his praises because of the miracles he accomplishes [10], but it's all very short lived. After three and a half years of prosperity, all hell breaks loose on earth that has never taken place before, referred to by Jesus as the great tribulation in Matthew 24.

Consider the timeframe here. When the United Nations reaches their 2030 goal, they will soon after install a leader over the new world order (the Antichrist) who will be in authority for seven years. That means as soon as 2030 the Antichrist could be in authority. By 2037 Jesus could return, the Antichrist could be destroyed, and we who belong to Jesus could be in our eternal home ruling as joint heirs with Jesus as kings in his kingdom. In 2030 I'll be seventy-seven. In 2037 I'll be eighty-four. If I live a long life, I will be around to see it all unfold.

Jesus tells us when we see these things taking place to look up toward the heavens from where he will return because our redemption, our entrance into God's kingdom, will soon be here. [11] It's time to look up with urgent anticipation.

WHAT DO WE DO?

Be assured, politicians and governments are not your friends. Stopping or slowing the direction the world is headed will not take place through any political means. Compare any seventy-year generation with the one before it and ask yourself how things are any better off. Things get progressively worse, not better. It doesn't matter which political party is in the White House, each successive generation is worse than the one before it. There is no stopping sin's progression unless a nation repents. It is my belief that we are too far along to turn things around. To understand why I say this, see my article, *Sin's Progression* at www.hope-for-today.com.

According to the Bible we are to take the action the prophet Daniel was told to pass on to our present generation: “And they that understand among the people shall instruct many: yet they shall fall by the sword, and by flame, by captivity, and by spoil, many days.” [12]

The prophet was referring to that time when the Antichrist is in authority. We are encouraged to help people understand the events that are taking place` from a Biblical perspective. We are to help

others to find their hope in Jesus and to prepare for his arrival.

The apostle John was also encouraged to tell the world about the events of earth's final seven years when he was told to: "prophesy again before many peoples, and nations, and tongues, and kings." [13]

The apostle was told to tell what was coming on the earth after he was given the revelation of earth's final seven years and understood the horrors that were going to take place. [14]

When Jesus taught about earth's final days, he also taught that the gospel would continue to be preached. [15] In other words, you and I have the responsibility to understand what is happening and to let others know why they are happening and their need to prepare for Jesus' return through repentance and righteousness.

Our battle is not against flesh and blood. Our weapons are not physical. We are to use the sword of the Spirit and the preaching of the gospel to go forth in the Spirit of Psalm 149:5-9 (emphasis added):

"Let the saints be joyful in glory: let them sing aloud upon their beds. Let the high praises of God be in their mouth, and a two-edged sword in their hand; TO EXECUTE vengeance upon the heathen, and punishments upon the people; TO BIND their kings with chains, and their nobles with fetters of iron; TO EXECUTE upon them the judgment written: this honor have all his saints. Praise ye the Lord."

THE SUM OF THE MATTER

It's good to keep in mind that the Bible tells us what is coming: realignment of all nations under ten regions, a cashless economy, deception by healthcare, and the removal of Christian values.

On the other hand, it is world events that tell us how prophetic events will be fulfilled. In our present generation it is the United Nations Agenda 2030 that is laying out the infrastructure to fulfill the final pieces necessary for the one

called the Antichrist to be given authority over a new world order.

The next seven years, from 2024 to 2030, will be difficult and troublesome, impacting our nations much more than COVID-19. Giving leadership to it all is the United Nations. Pay close attention to what you hear or read about the United Nations as if what they do will impact you, because it will...but in ways you will not like.

Blessings!
Steve
